Dear Hiring Manager,

I am excited to apply for Intern position at your organization. As a graduate student in Master's in Computer Science at Central Michigan University (August 2024 – December 2025) and with over four years of professional experience for clients like Mercedes-Benz and Point32Health. I am eager to contribute my technical expertise, leadership skills, and passion for problem-solving to your team with an aim to enhance, build skills in managing data, collaborate and develop solutions which delivers data driven solutions to every individual.

Educational Background

- **Master of Science in Computer Science**, Central Michigan University
 - Focus areas: advanced algorithms, data modelling and analytics, data mining, big data, and data engineering.
 - Project work to demonstrate Data Engineering principals, Data Analysis and Modelling, Databases.
- **Bachelor of Technology in Computer Science**, Lovely Professional University
 - Gained a solid foundation in computer science principles, application development, and software engineering.

Professional Experience

Software Development Analyst, NTT DATA (August 2022 – July 2024)

- Designed and implemented microservices architecture for healthcare applications, ensuring scalability and robustness.
- Spearheaded the migration of logging APIs for managed services, adhering to the FHIR standards.
- Resolved data consistency issues, ensuring 99.9% accuracy in API operations.
- Led the development of batch processing systems, enhancing data cache reliability and system efficiency.

Senior Analyst & Analyst, Capgemini (July 2020 – July 2022)

- Optimized API response times by 90% and improved vehicle stock prediction systems for a luxury car manufacturer.
- Restructured build scripts to improve Jenkins memory efficiency and streamlined deployment processes.
- Developed REST and SOAP services using Java 8 and Spring Boot, aligning with client requirements.
- Played a key role in ensuring data integrity across large-scale systems through rigorous testing and debugging.

Leadership and Team Collaboration

- Mentored junior developers, guiding them through technical challenges and fostering their professional growth.
- Coordinated with cross-functional teams to ensure seamless integration and delivery of high-priority projects.
- Led training projects, demonstrating team-developed applications with Java and Angular to stakeholders.
- Actively encouraged knowledge sharing within teams, promoting a collaborative and growth-oriented environment.

Continuous Learning and Certifications

- Certifications: Azure Fundamentals, Azure Developer Associate, Azure Data Engineer Associate, Agile Software Development, and Linux.
- Consistently expanding technical expertise in cloud computing, SQL optimization, and cutting-edge frameworks.

Closing Statement

With a solid educational background, extensive professional experience, and proven leadership skills, I am confident in my ability to contribute to your team's success. Thank you for considering my application. I look forward to discussing how my skills and experiences align with your goals and vision.

Sincerely,

Kunal Maheshwari
